

ACP | AUTO-CENTRE HYDRAULIC PULLER KITS

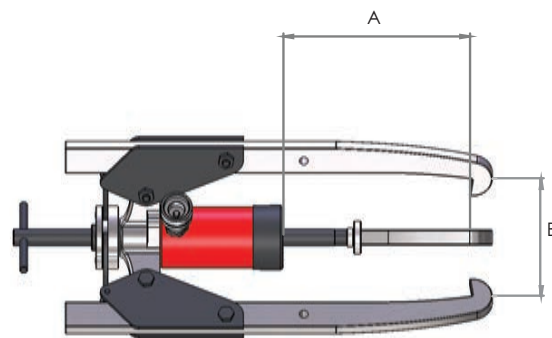

Capacities from 10 to 50 tonnes

Quick set-up time, easy to use

High quality, drop forged steel components

- ▶ Self-centering design allows secure positioning of jaws
- ▶ Incorporates safety overload prevention valve within hydraulic pump
- ▶ Supplied as a complete set with all necessary hydraulic components in handy storage case
- ▶ Model ACP10 offers a choice of either 2-way or 3-way puller operation (see Note)

Model number	Capacity (tonnes)	Type of puller	Cylinder model	Pump model	Weight (kg)	Dimensions (mm)		
						A	B (min)	B (max)
ACP10	10	2 & 3-way jaw	HHS102	PK10-HP	24.5	296	50	350
ACP20	20	3-way jaw	HHS202	PK20-HP	44.0	320	70	480
ACP30	30	3-way jaw	HHS302	PK30-HP	76.5	407	90	580
ACP50	50	3-way jaw	HHS603	PK50-HP	181.0	727	120	920

Note: ACP10 is supplied with a combination crosshead. This combination crosshead can be used as a 2-jaw puller when the legs are arranged at 180° and as a 3-jaw puller when the legs are arranged at 120°.
